Integrated Home and Corporate Automation Systems

Smart Living for Everyone

Live Smart, Act Smart, Control Smart!!!

Shrini Corp's Integrated Smart Automation systems are custom built to best fit around your lifestyle and needs. Whether you are looking to Automate a single room or you are designing your dream home or bungalow.

Keep yourself in comfort and save Energy at the same time.

Advanced Lighting Control with Voice

We offer state-of-the-art Lighting Control systems specifically for luxury homes with complicated lighting loads and unique ambient lighting conditions. Our advanced lighting control system offers voice control over lights and moods. With Advanced Voice Control Technology Integration with your Smart Home.

Residential and Commercial Media Control

Our team are specialists in transforming any living spaces, lofts and basements into media rooms or a dedicated Home Theatre. From dedicated audio zones to fully automated theatre rooms, your bespoke cinema or audio room can be as discreet or as indulgent as you wish.

Protect your Environment and Valuables

Smart Residence security systems allow you and your family to monitor your home for burglary, theft, fire or smoke, from almost anywhere with a smartphone, tablet or computer.
